If you can't find what you are looking for online, call an IBM Certified Pre-Owned sales specialist to discuss your needs:

Call 1 866-IBM-1123 or email [ibmused@us.ibm.com](mailto:ibmused@us.ibm.com)

for a customized IBM Certified Pre-Owned solution. Payment options available.

IBM Global Asset Recovery Services worldwide operations and execution of processes in the Americas, Japan, Asia Pacific and Europe are certified to the ISO 14001 - 2015 standard. Certification includes global operations and logistics processes related to the return, remanufacturing, de-manufacturing, remarketing and disposal of used equipment.

In 2019, close to 30,000 assets were processed per week and an estimated 5 million parts were harvested and resold.

Refurbished assets are sold as IBM Certified Pre-Owned servers and storage, parts or features and are refurbished using only genuine parts from an authentic Bill of Materials to original manufacturing specifications and immediately eligible for IBM Maintenance.
