

# How can logistics companies drive growth and maintain service quality?

**300k** The Allen Lund Company manages 300k shipments per year

And must help customers, carriers and shippers communicate

Integration volumes were doubling every 3 months

**\$10k** Unplanned downtime could cost up to \$10k per hour

Automation helps onboard new partners efficiently

**+10**

Helping to add up to 10 new trading partners per week
