Payment solutions for IBM Security

August 2020
Help start your security projects sooner with payment plans from IBM

The complexity of cybersecurity can create gaps that allow organizations to miss security threats. IBM Security can help you design, build and deploy a security program that enables you to protect your data wherever it resides, while managing risks and using AI to detect and respond to threats.

Discover solutions that unite defenses and unlock innovation with a partner that understands your business.

Choose security solutions that can help:

- Align your security strategy for your business.
- Protect your digital assets, users and data.
- Manage your defenses against growing threats.
- Modernize your security with an open, multicloud platform.

Prepare today for the cyber threats of tomorrow with payment solutions

With cybersecurity threats, urgency matters. Detect and prevent advanced threats with an integrated security portfolio. As a strategic IT financing resource, we can help you build cost-effective financing into your cybersecurity strategy in order to:

- **Accelerate projects**
  Start and execute IBM Security projects sooner with payment plans, loans and payment deferrals. We can work with you to structure a plan that meets your needs.

- **Enhance business results**
  Flexible payment solutions may help improve cash flow and enhance return on investment.

- **Boost agility and flexibility**
  Help align your cybersecurity infrastructure investments with workload needs by using flexible payment solutions.
Retailer aligns budgets with expected benefits

An electronics and mobile telephone retailer engaged IBM Security Services to implement software for personalized account creation rather than continuing to use shared accounts, reducing authorization management tasks by nearly 100%. To help align its budget with expected benefits, the organization engaged IBM Global Financing to provide a flexible payment plan to finance the security software and services.

Why IBM?

IBM Global Financing has been in operation for more than 35 years and serves clients in over 60 countries, spanning more than 20 industries. With a global reach and expertise in IT financing, working capital and credit, IBM Global Financing offers flexible payment plans and leasing solutions for IBM software, services and IT infrastructure including pre-owned servers and storage. Non-IBM content which is part of an overall IBM end user client solution may also be eligible for financing through IBM Global Financing.

Payment solutions helped retailer meet their need for security software and services

IBM Global Financing offerings are provided through IBM subsidiaries and divisions worldwide to qualified commercial and government clients. IBM Global Financing lease and financing offerings are provided in the United States through IBM Credit LLC. Rates and availability are based on a client’s credit rating, financing terms, offering type, equipment and product type and options, and may vary by country. Non-IBM content which is part of an overall IBM end user client solution may also be eligible for financing through IBM Global Financing. Non-hardware items are financed by means of loans. Other restrictions may apply. Rates and offerings are subject to change, extension or withdrawal without notice and may not be available in all countries. IBM and IBM Global Financing do not, nor intend to, offer or provide accounting, tax or legal advice to clients. Clients should consult with their own financial, tax and legal advisors. Any tax or accounting treatment decisions made by or on behalf of the client are the sole responsibility of the client. For IBM Credit LLC in California: Loans made or arranged pursuant to a California Financing Law license. All statements regarding IBM’s future direction and intent are subject to change or withdrawal without notice and represent goals and objectives only.
