

IBM i on Power Systems workshops

Db2® Mirror for IBM i Readiness Assessment

Overview:

Workshop code: Db2M

Skill level: Intermediate

Duration: 5 days

Delivery type: Classroom

Workshop type: Public

Start date: contact jbmsls@us.ibm.com

Public price: USD TBD plus tax

Location: TBD

Class language: English

Description:

The Db2 Mirror for i customized consulting engagement will provide customers, Business Partners, and ISVs the skills required to implement a Db2 Mirror solution, as well the ability to test their applications on a Db2 Mirror environment in the lab. This consulting assessment is available as a variable length engagement in increments of 1 week. The maximum time for an engagement will be 3 weeks. At the end of the session the attendees will have the knowledge of Db2 Mirror to continue working and testing as required.

Audience

- Any customer, Business Partner, or Independent Software Vendor who wishes to learn about Db2 Mirror in depth and test their application.

Workshop outline

- Planning for a Db2 Mirror implementation
- Configuring a Db2 Mirror solution using Storwize® and DS8000®
- Restoring an Application into Db2 Mirror
- Suspending and resuming a Db2 Mirror environment
- Managing a Db2 Mirror environment
- Performance impacts of Db2 Mirror on the application
