

IBM has obtained Corporate wide certifications for ISO 9001, ISO 14001, ISO 50001 and ISO 45001

The International Organization for Standardization (ISO) is a worldwide federation of national standards bodies from some 140 countries. The vast majority of ISO standards are highly specific to a particular product, material, or process. IBM meets ISO certifications through normal IBM practices and processes. IBM has obtained Corporate certifications for ISO 9001 (quality management system), ISO 14001 & ISO 50001 ([environmental system](#)) and ISO 45001 (occupational health and safety) standards, and Business unit certifications for ISO 20000 (IT services management), ISO 22301 (business continuity), ISO 27001 (information security management system), ISO 27017 (information security for cloud services), ISO 27018 (PII in public clouds), ISO 27701 (privacy information management system), ISO 31000 (risk management), ISO 13485 (medical devices) and the French Health Data Security (HDS) standards.
