

How can LiveMon power the always-on economy?

Today's economy requires

100%
availability

LiveMon helps keep key systems running

24/7

Monitoring solution runs on

112 IBM
Power S822L
servers

24/7

8x

improvement
in processing
speed vs. x86

Millisecond

latency enables
real-time monitoring

Adapts

to each client and
predicts faults
