

# IBM Certified Pre-Owned

Expand your infrastructure with IBM refurbished servers, parts and features

In 2018, over 99% of all IT equipment returned to IBM was processed for reuse, resale or material recycling.

Through the IT asset recovery operation, IBM processed:

**24,000+**

metric tons (or 53 million pounds) of products parts and materials

**22,000+**

assets per week through remanufacturing

**7 million+**

units prepared for resale

IBM Certified Pre-Owned servers and storage systems can be configured to clients' specifications.

When you buy IBM Certified Pre-Owned servers or storage, you get equipment that is:

Refurbished using parts according to original Bill of Materials

Tested and inspected to IBM specifications

Eligible for IBM Maintenance from the moment of purchase

Contact us today to discuss the configuration you need.
