

# IBM z15 System Recovery Boost feature code name change

## Table of contents

<a href="#">1 Overview</a>	<a href="#">2 Product number</a>
<a href="#">1 Effective date</a>	<a href="#">2 Order now</a>

## Overview

IBM is changing the titles of System Recovery Boost feature codes 6802 and 9930 to help clear up confusion between these priced features and the base capability on the z15. **No specific z15 feature codes need to be ordered to be able to use the base capabilities of System Recovery Boost.** Feature codes 6802 and 9930 are required only to make use of the optional System Recovery Boost Upgrade Record, which allows the temporary activation of additional zIIP processor resources in conjunction with System Recovery Boost.

The feature code titles are changing to:

- Feature Code 6802: SRB Upgrade Record
- Feature Code 9930: SRB Upgrade Authorization

## Effective date

November 26, 2019

## Section 508 of the US Rehabilitation Act

IBM<sup>(R)</sup> z15 servers are capable on delivery, when used in accordance with IBM's associated documentation, of satisfying the applicable requirements of Section 508 of the Rehabilitation Act of 1973, 29 U.S.C. Section 794d, as implemented by 36 C.F.R. Part 1194, provided that any assistive technology used with the product properly interoperates with it.

IBM makes no representation about the Section 508 status of third-party products included in this offering. Contact the vendor for specific, current information on the Section 508 status of these products.
