## Overview

IBM<sup>(R)</sup> Maximo<sup>(R)</sup> Application Suite Managed Service V8.0 provides a single point of access to the full range of IBM Maximo Application Suite asset lifecycle management capabilities running on IBM Cloud<sup>(R)</sup> with the support of IBM operational experts. The solution offers the following features and benefits.

- Access to a managed service for deployment of Clients' IBM Maximo Asset Management and IBM Maximo Asset Monitor on IBM Cloud through Red Hat<sup>(R)</sup> OpenShift<sup>(R)</sup> (entitlement and licenses to Maximo Asset Management and Maximo Asset Monitor software must be purchased separately).
- Scalability that enables users to add memory and data storage on demand.
- End-to-end managed service that includes installation, configuration, upgrades, application operations, database management, infrastructure, and network management, including Red Hat OpenShift application installation.
- Support from experienced IBM service and operational experts.
- Increased productivity by focusing on business decisions and innovation rather than system maintenance.
- On-demand benefits that remove barriers to heavy deployment requirements and upfront investment: Organizations can start with only the components they need and pay for only the components they use.
- Cost, operational, and labor-saving benefits of shifting the burden of security and compliance to IBM support experts.

Maximo Application Suite Managed Service V8.0, when combined with Maximo Asset Management or Maximo Asset Monitor software licenses offered separately, gives clients full management capability and informational visibility of their assets, including the use of artificial intelligence (AI) to assist engineers, operators, and managers in making the best decisions and taking best actions.

## Key requirements

IBM Maximo Application Suite V8.0.0

## Planned availability date

---

## Reference information

---

Follow-on levels of this cloud service, if any, may have updated terms. See the [Cloud Services terms](#) website and search using the four-digit base Service Description number.

### **Limited warranty**

---

See the warranty defined in the applicable agreement governing client's acquisition for this offering.

### **Money-back guarantee**

---

No

### **Volume orders (IVO)**

---

No

### **Passport Advantage applies**

---

Yes, information is available on the [Passport Advantage and Passport Advantage Express](#) website.

### **Educational allowance available**

---

No.

---

## **Statement of good security practices**

---

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely

effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

**Important:** IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

---

## Prices

---

For additional information and current prices, contact your local IBM representative or IBM Business Partner.

### **Business Partner information**

If you are an IBM Business Partner acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the [IBM Passport Advantage](#) or [IBM PartnerWorld<sup>\(R\)</sup>](#) website.

### **Passport Advantage**

For Passport Advantage information and charges, contact your IBM representative. Additional information is also available on the [Passport Advantage and Passport Advantage Express](#) website.

### **IBM Global Financing**

---

IBM Global Financing offers competitive financing to credit-qualified clients to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all client segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or go to the [IBM Global Financing](#) website for more information.

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government clients. Rates are based on a client's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.
