Overview

IBM^(R) OpenPages^(R) with Watson on Cloud is an integrated governance, risk, and compliance platform that enables companies to manage risk and regulatory challenges across the enterprise.

It provides a set of core services and functional components that span risk and compliance domains, which include operational risk, policy management, financial controls management, IT governance, internal audit, model risk governance, regulatory compliance management, third-party risk management, business continuity management, and data privacy management.

New in this release

IBM OpenPages Data Privacy Management

OpenPages with Watson on Cloud now includes OpenPages Data Privacy Management in its risk and regulatory compliance portfolio. OpenPages Data Privacy Management is a tool that helps organizations to comply with data privacy regulations. These regulations require organizations to demonstrate that private or sensitive data is being handled correctly. To meet these requirements effectively, the organization must have clear visibility of all their private data. OpenPages Data Privacy Management assists chief procurement officers (CPOs), chief data officers (CDOs), chief commercial officers (CCOs), and other privacy and compliance professionals by providing this visibility and enabling them to help ensure compliance.

OpenPages Data Privacy Management brings the following function to your organization's risk and compliance operations:

- Compliance is supported with data privacy regulations.
- Built-in integration with IBM Watson^(R) Knowledge Catalog enables users to maintain an inventory of all private data across the organization within OpenPages.
- Questionnaire assessments and reporting capabilities enable organizations to demonstrate privacy compliance.
- Data privacy professionals can gain a holistic view of all private data across their organization.

- Automated workflow can initiate privacy assessments for newly loaded data assets.

IBM OpenPages Starter Bundle on Cloud

IBM OpenPages Starter Bundle on Cloud is a new entry-level bundle that provides organizations with a simpler and less costly option of acquiring the standard quantity of Instances and Users of the cloud service, accelerating setup for entry-level clients.

Key requirements

- Internet connection
- Supported browser

Planned availability date

March 23, 2021

Yes, information is available on the [Passport Advantage^{\(R\)}](#) and [Passport Advantage Express](#) website.

Educational allowance available

No

Statement of good security practices

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

For additional information and current prices, contact your local IBM representative or IBM Business Partner.

Business Partner information

If you are an IBM Business Partner acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the [IBM Passport Advantage](#) or [IBM PartnerWorld^{\(R\)}](#) website.

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative. Additional information is also available on the [Passport Advantage and Passport Advantage Express](#) website.
