5770-XW1	7.2.0	IBM i Access Family

The above listed products will no longer be available for **initial order**. All feature numbers will remain in place to allow:

- Group-to-group upgrades
- Transfers from one machine to another
- Increasing authorized use (for example, processor or user entitlements)

Effective April 30, 2020, the following programs and features will be withdrawn<sup>1</sup>:

<sup>1</sup> Starting in October 2016, IBM i simplified the delivery for a subset of Licensed Program Products (LPPs) for IBM i and the IBM i feature OptiConnect. The LPPs are CICS (5770-DFH), Managed Services for i (5770-MG1), System Manager for i (5770-SM1), Application Runtime Expert for i (5733-ARE), and Facsimile Support for i (5798-FAX). For IBM i 7.2 and later, the selected LPPs and IBM i feature are no longer ordered separately and instead are automatically delivered with all Operating System orders and upgrades. Check the IBM i Operating System media for higher release replacement versions for these products. For additional information on this change in IBM i delivery, see Software Announcement [216-400](#), dated October 11, 2016.

Effective April 30, 2020, the following features will be withdrawn from marketing:

<sup>1</sup> Starting in October 2016, IBM i simplified the delivery for a subset of Licensed Program Products (LPPs) for IBM i and the IBM i feature OptiConnect. The LPPs are CICS (5770-DFH), Managed Services for i (5770-MG1), System Manager for i (5770-SM1), Application Runtime Expert for i (5733-ARE), and Facsimile Support for i (5798-FAX). For IBM i 7.2 and later, the selected LPPs and IBM i feature are no longer ordered separately and instead are automatically delivered with all Operating System orders and upgrades. Check the IBM i Operating System media for higher release replacement versions for these products. For additional information on this change in IBM i delivery, see Software Announcement [216-400](#), dated October 11, 2016.
