-

IBM Connections Cloud

The leading cloud-delivered collaboration platform

IBM Connections Cloud combines enterprise-class email, online document editing, instant messaging, web conferencing, file sharing and social business services in an easy to deploy, simplified package.

Businesses can get work done simply and intelligently with IBM® Connections Cloud. A comprehensive set of capabilities, Connections Cloud includes social, mobile, and real-time communication and collaboration tools. Organizations can build communities, blogs, forums wikis and profiles as well as file share, manage social content, chat, conduct meetings, and collaborate over audio and video; gain access to web document collaborative editing and integrated, enterprise-grade mail. It engages employees to work smarter by embedding intuitive social analytics and metrics within existing business processes that can help drive adoption and deepen relationships with customers. Connections Cloud broadens workspace boundaries to provide the key to business growth.

With Connections Cloud, you benefit from essential and effective collaboration tools in a security-rich environment that help simplify and improve your daily business interactions with customers, partners and colleagues.

Through the utilization of the cloud, customers are able to deploy the full breathe of these capabilities in minutes. Your collaboration and messaging infrastructure needs are managed by IBM, allowing you to focus on your core business.
