Digital Reinvention® in electronics

Disruption has fundamentally changed the electronics industry

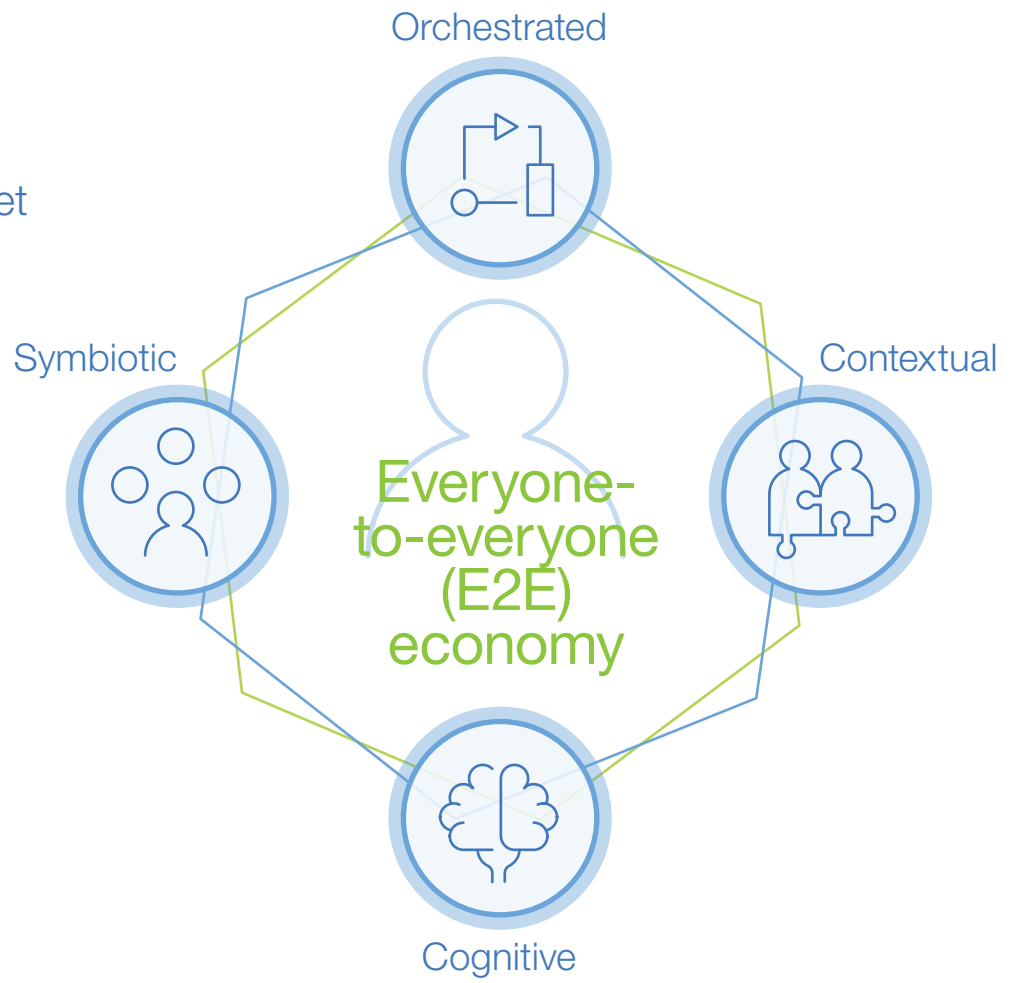

Electronics executives say that dramatic external forces will impact their business in the next two to three years: 76% cite market factors while 73% cite technology

72% of electronics companies tell us the boundaries between industries are blurring

41% of electronics companies are launching or modifying new business models in the next two to three years to respond, compared to 17% that did so in the past two to three years

Electronics executives recognize the imperative to digitally reinvent their business

Digitization
Improve efficiency by applying technology to individual resources or processes

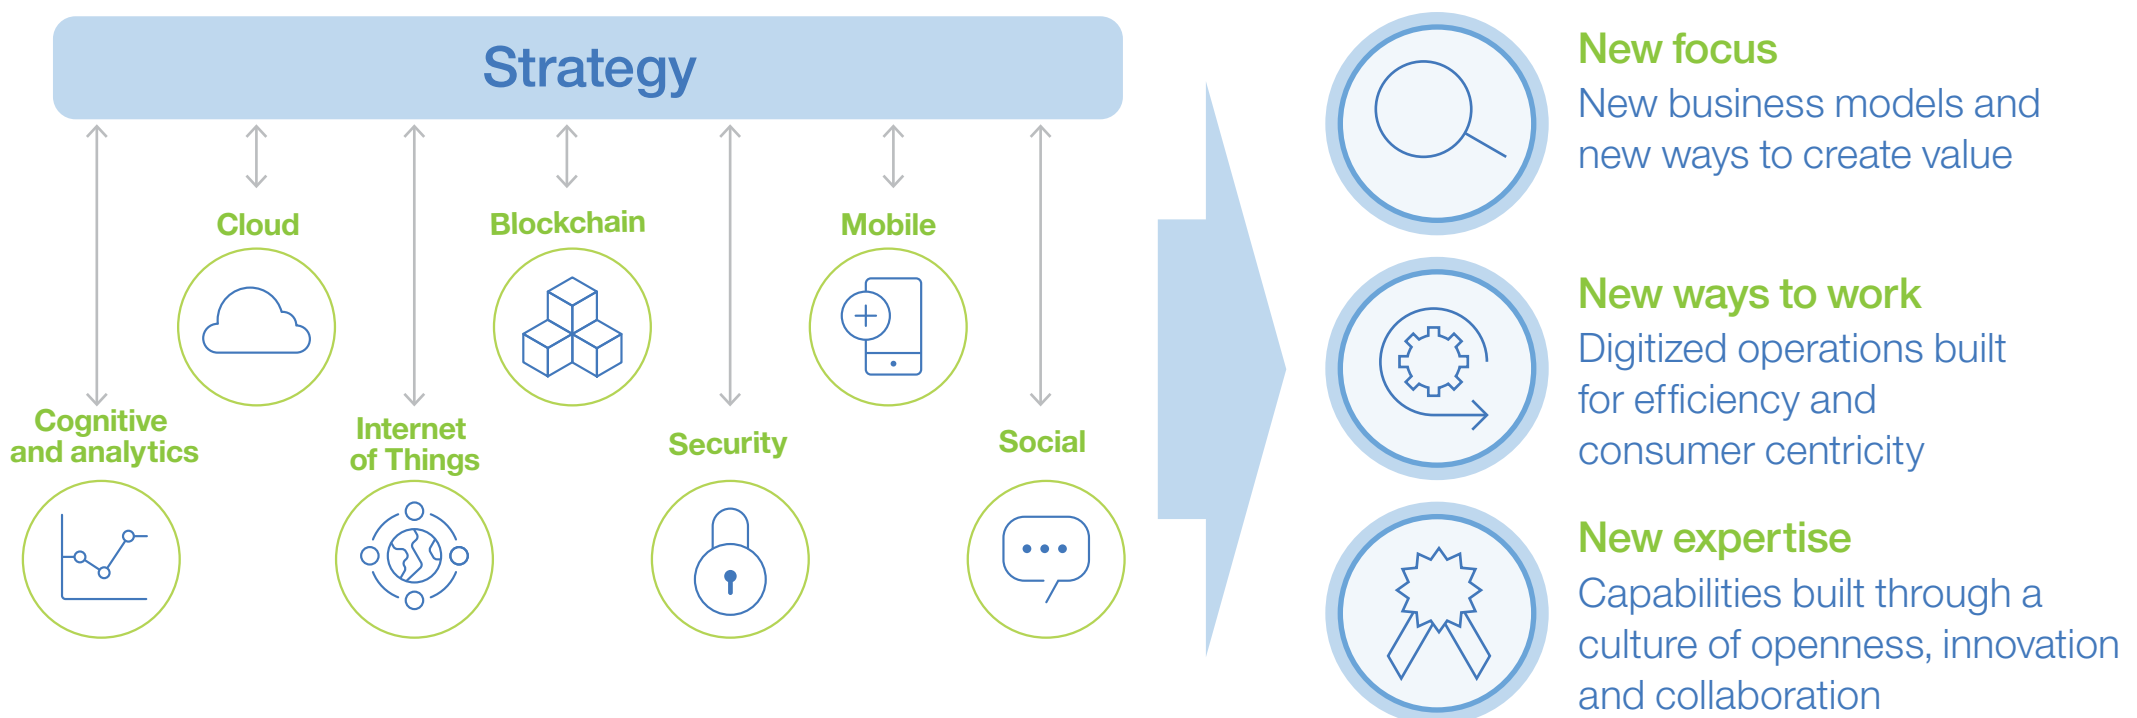

Digital transformation
Digitize entire aspects of a business, producing consumer experiences that support individuals' needs or wants

Digital Reinvention®
Incorporate digital technologies like never before to create revenues and results via innovative strategies, products and experiences

Electronics businesses need to seize a digital advantage
