# Meet your short-term IT equipment needs while improving cash flow

IBM Certified Pre-Owned Rental Program
is tailored for short-term Server and Storage
equipment needs

Benefits

Keep up with technology design cycles when you
rent newer Power Systems and Storage models
from IBM Certified Pre-Owned Rental Program.
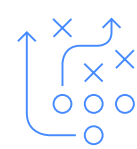

Control budget and cost

— Improve cash flow and avoid
  capital spend by paying for your
  equipment rental expenses
  on an as-needed basis
— Avoid costs of ownership
  such as depreciation, interest,
  maintenance, and calibration

Quickly respond to business demands

— Next-day delivery
— Quickly increase overall capability
  when and where needed
— Makes the project schedule
  easier to manage with
  on-demand resources.

Built for trust and reliability

— Tested and Certified
— Includes warranty and
  maintenance
— Allows you to continue your
  project when owned equipment
  needs repair or calibration

Rent your IT equipment now

— Mix new and legacy models.
— Benefit from next-day delivery.
— Try before you buy.

Meet your short-term IT needs and improve your cash flow with a three
to 12 month rental from IBM Certified Pre-Owned Rental Program.
