**think** Brussels

IBM

Where technology meets humanity

THANK YOU.

For being with us at Think Brussels. This event is the result of a collaboration between customers, local and global experts. All sharing their experiences and discussing the impact of AI, Cloud & Data on their business journey.

During 2 days you had the opportunity to attend dedicated campuses. On the first day Cloud & Data, Modern Infrastructure, Security & Resiliency and day 2 Business & AI.

We hope you will enjoy this **Modern Infrastructure** overview. Thanks again for being our guest.

Your host,

Sebastian Krause, General Manager, Cloud Europe

You can find all presentation we can share of IBM Think Brussels here
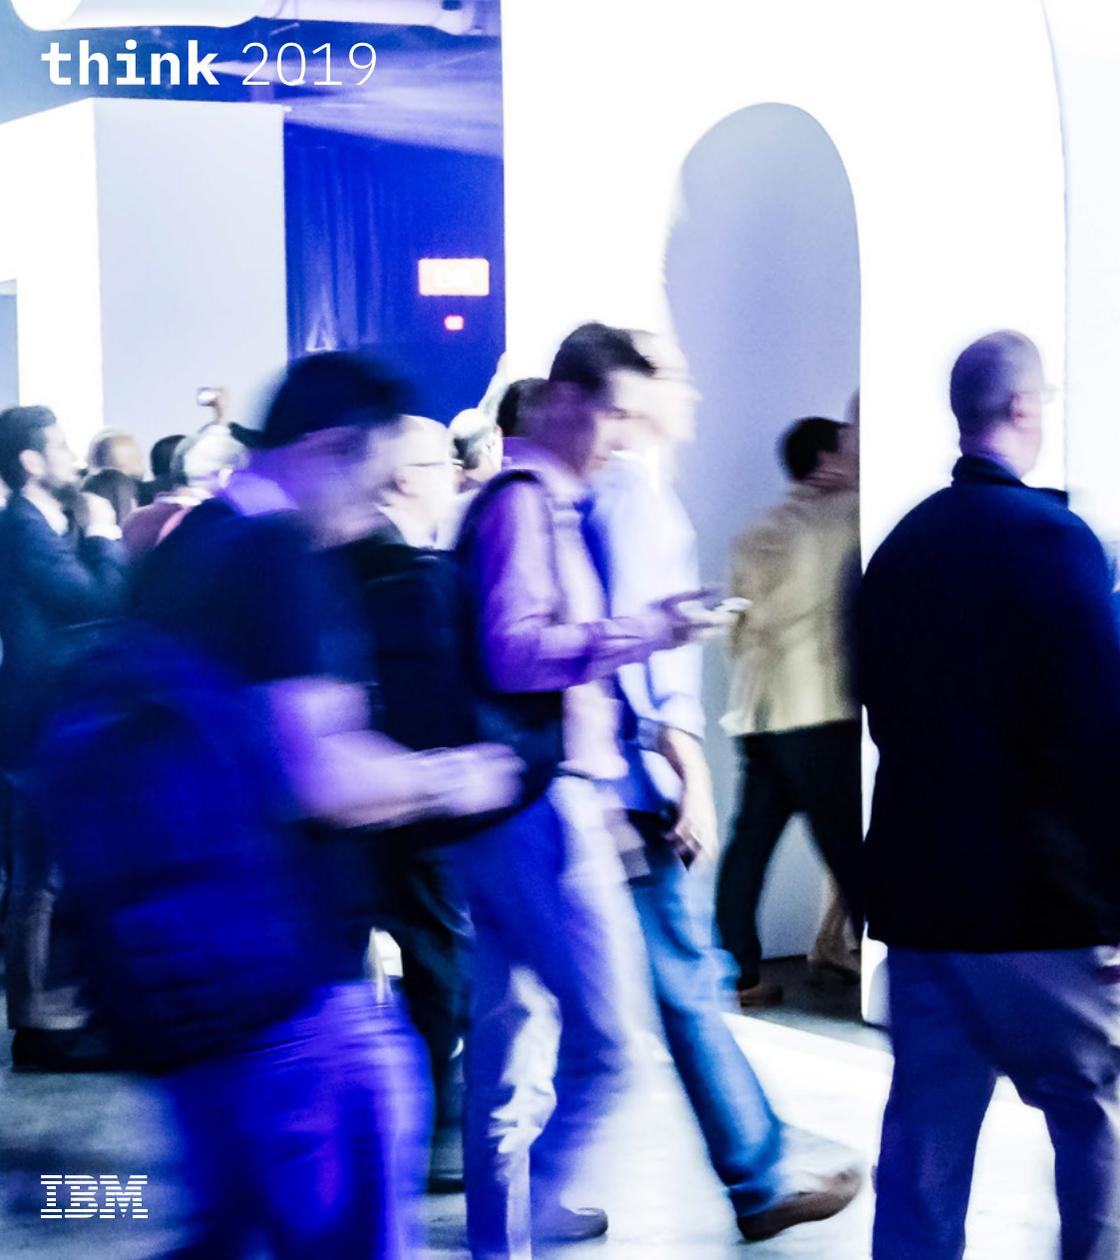

Modern Infrastructure

During our sessions we discussed why modern infrastructure is important to become successful as a business. One reason is that in current days you must have the ability of deriving value out of data.

Build a future proof IT-infrastructure.

But it is also crucial that all data is available where & when needed and runs in a client's Multi-Cloud environment. You need a scalable, secure and innovative infrastructure.

Interested in knowing more details about IBM Modern Infrastructure solutions? Visit our dedicated web pages.

If you want to get in contact with us you can send an e-mail to jeroen.pijpelink@ie.ibm.com
