TOUGHEN UP!
YOUR RUGGEDIZED DEVICE MANAGEMENT

Battle-tested, workplace-approved

Just like any other device, ruggedized devices in demanding environments have to be managed, secured, tracked and updated. As do their users, applications (apps), documents (docs) and data.

What to look for in a management tool

Support popular operating systems:

Make device provisioning simple
- Seamless over-the-air (OTA) enrollment
- Options for barcode scan and side loading
- Fast, simple configuration steps for users
- Apple Device Enrollment Program and Android zero-touch enrollment support
- Multi-user device sharing

Secure data and uphold compliance
- Remote distribution of patches
- User- and device-based policies
- Wi-Fi and VPN profile configuration
- Restricted removal of MDM
- Data loss prevention with USB, Bluetooth and SD card controls

IBM® MaaS360® with Watson™ offers ruggedized device management support across a wide range of devices and use cases

What to look for in a management tool

You demand a lot from your ruggedized devices—and need a way to ensure you get the most from them. With support for endpoints, end users, and everything in between, MaaS360 unified endpoint management (UEM) is fit for your enterprise challenges.

EVEN THOUGH THEY'RE TOUGH, THEY'RE JUST LIKE OTHER DEVICES

Try MaaS360
ruggedized device management for 30 days at no cost.
