

IBM Vouchers for Power Systems

Learn more about the capabilities and features of your servers

The Power of education

With IBM i and selected Power Systems™ servers, valuable education and services vouchers are included at no additional charge. IBM i vouchers are designed to help you more fully understand and use the advanced features and capabilities of IBM i. Vouchers are only available with selected new Power Systems servers, and vouchers are not available with system upgrades. [Service vouchers](#) are valid for 5 years beyond the ship date and [education vouchers](#) are valid for 3 years beyond the ship date. See below for the list of systems, and in addition, selected POWER6® systems can still be registered and eligibility will be verified.

Redeem your service vouchers

Services on the following technologies are available for the IBM i and selected Power Systems servers. The offerings are designed to help you “get started” in a leading-edge application. With help from an expert on IBM’s technical team at your side, you will quickly take advantage of your new system’s capabilities. Once you register your voucher, IBM will work with you to define the service.

Vouchers are valued at approximately one day of on-site service, unless otherwise noted, and can be used toward services on the following technologies:

IBM i performance <ul style="list-style-type: none">– IBM i performance– SQL performance	Availability <ul style="list-style-type: none">– IBM i availability assessment– IBM i BRMS– PowerHA® on IBM i	Middleware <ul style="list-style-type: none">– WebSphere® with IBM i– PHP and Open Source on IBM i	IBM i database <ul style="list-style-type: none">– Db2® for IBM i best practices– Database revitalization– Db2® Web Query for IBM i
System solutions <ul style="list-style-type: none">– Migration assistance– PowerVM® Virtual I/O Server and IBM i– External Storage for IBM	Applications <ul style="list-style-type: none">– SAP on IBM i– Application modernization	Security <ul style="list-style-type: none">– Security assessment– PowerSC™– Single sign on	

Special services

Services for the 4-core non-CBU 8202-E4B, 8202-E4C, 8202-E4D, 8286- 41A, and 9009-41A models are limited to ½ day IBM delivered remote services from the technology list above.

Services only available for POWER7, POWER8 or POWER9 machine type/models ordered with CBU - specify feature (0444, 4891, 4896 or 4898):

Getting Started with CBU and Power HA

This 3 day service is designed to help you get started with IBM PowerHA SystemMirror for i. This service could provide planning and high-level design services to review the considerations for effectively utilizing PowerHA for i to enhance backup, high availability, and disaster recovery. The primary focus will be to work toward the installation and deployment of a “remote” secondary system (CBU edition) to be used in conjunction with your primary system to improve your overall business resiliency. The scope of the service will depend on your environment and desired solution with PowerHA.

Redeem your education vouchers

Get the skills you need to take advantage of IBM i. As part of this program, you can redeem your voucher to attend an IBM workshop or technical event or take a self-paced virtual class. Only one education voucher is required to attend any one of these workshops or Power Systems conferences.

Workshops

IBM i workshops are an effective way to bring education to your organization and advance your skills.

Technical events

IBM technical events are an exciting, efficient way to advance your skills and gain ground on your key initiatives. Every year, IBM brings together leading-edge thinkers, technology gurus and business experts for more than 30 technical universities and seminars worldwide. Driven by a vast network of analyst research, IBM global events can help make the difference between success and failure in your business. We deliver the answers you need, when you need them.
