

# IBM Service Bureau for SWIFT

As part of the IBM Payments Center (IPC), IBM Service Bureau for SWIFT allows banks and corporations to connect to the SWIFT network and services. The IPC and its cloud-based services help to ease the burden of building and deploying your own messaging systems and payments. Let IBM help with global connectivity for your payments modernization.

## The architectural advantages of IBM Service Bureau for SWIFT

Explore the benefits of the IBM Service Bureau for SWIFT to enable new services, improve efficiency and reduce costs.
