Introduction

The Information Technology Enterprise Solutions–2 Hardware (ITES–2H) is an Indefinite Delivery, Indefinite Quantity (ID/IQ) awarded to IBM by the Army Contracting Agency – ITEC4 in conjunction with the Army Computer Hardware, Enterprise Software and Solutions (CHESS), formerly Army Small Computer Program (ASCP). This is an exceptional contract vehicle for any Government Agency to use to meet its enterprise information technology requirements. ITES-2H is a streamlined acquisition contract vehicle that was awarded after full and open competition.

The purpose of ITES-2H is to support the Army enterprise infrastructure and info structure goals with a full range of innovative, world class information technology equipment and solutions at a reasonable price. The following types of products and services are included in the scope of ITES-2H:

- RISC/EPIC servers
- Intel/AMD servers
- Desktops
- Notebooks
- Workstations
- Thin clients
- Storage systems
- Networking equipment (including wireless)
- Network printers
- Product ancillaries (including equipment cabinets, racks and mounts)
- Peripherals (including monitors)
- Network cabling products
- Video teleconferencing (VTC) products
- Standalone displays (e.g., plasma screens, HDTV's)
- Scanners
- Everything over Internet Protocol (EoIP) products
- Communications devices
- Power devices
- Software
- Basic warranty and warranty options
- Other related accessories and options

Related services that enable the capability to provide end-to-end equipment solutions to include:

- System configuration and integration
- Physical site analysis
- Installation and relocation
- High availability configuration
- Legacy equipment warranty/maintenance

The personal computers and notebooks are for the fielding of a complete system or as part of a total design solution, as opposed to a personal computer or notebook replacement vehicle.

Services shall be directly related to the procurement of equipment under this contract. The legacy equipment warranty/maintenance shall be related to the integration of equipment procured under this contract. The services shall be performed as requested by the customer on individual delivery orders.

This Ordering Guide includes specific IBM contracting and contact information as well as more detail about the IBM's products and capabilities. The guide has been developed to compliment the ITES-2H Ordering Guidelines developed by the Army Contracting Agency – ITEC4. To obtain the most current version of those guidelines, access the CHES website at:

<https://chess.army.mil/>.

U.S. Army Computer Hardware, Enterprise Software and Solutions (CHES)

The Army Computer Hardware, Enterprise Software and Solutions (CHES), formerly Army Small Computer Program (ASCP), located in Ft. Belvoir, Virginia, is the Army's primary source for commercial IT products and services. The ITES-2H program was designed to support the Army's enterprise infrastructure and info structure goals with information technology products and solutions. Questions regarding the ITES-2H program may be directed to the Point of Contacts (POC's) found under the "Contact" section of this guide.

Contacts

If you would like to obtain more information about the ITES-2H contract, send a quote request, or place an order, you can contact the IBM Program Office via any of the following methods:

Products and Solutions

This section provides a summary of the products and solutions that can be acquired under the ITES-2H contract. The range of products and solutions available are not limited to those listed below. For more information about the full range of offerings or to order these items, please contact the IBM Program Office using the information listed in the Contacts section above. Two (2) one year optional ordering periods have been exercised by the Government. The extension of period of performance on CLINS 2010-2902 has been changed from February 9, 2011-February 8, 2012 to February 9, 2011-August 21, 2013. The ITES2H contract has been extended through June 23, 2015, and in June 2015 another extension was put in place through June 23, 2016.

Products are offered on a catalog basis. Please refer to the appropriate web based catalog for detailed product and pricing information.

CLIN	CLIN Description	MFG.	Price	Unit of Issue
2010	<p>Related Items, Equipment and FFP Software - Non-Catalog Items.</p> <p>This CLIN may be used for New Technology, items that do not fit into the predefined Catalogs I through IX, and for items required to complete an ITES-2H solution. Items include equipment and software such as digital senders, plotters, power adapters, biometric devices, equipment cabinets, transit cases, and commercial software (non-DoD ESI) products required to complete an ITES-2H solution. Related items shall be within the scope of the contract, but items that do not necessarily fit into Catalogs I through IX.</p> <p>FOB: Destination</p>	Various	TBD	Lot
2020	<p>Related Services – FFP</p> <p>Related services shall be services directly related to the ITES-2H equipment requirement. The contractor shall also provide legacy equipment maintenance/warranty as part of system configuration and integration services. The legacy equipment warranty/maintenance shall be related to the integration of equipment procured under this contract and will clearly define items to be maintained and level of service required. All services shall be performed as negotiated and agreed to by the requiring activity.</p> <p>FOB: Destination</p>	Various	TBD	Lot
2030	<p>OCONUS Shipping – FFP</p> <p>Shipping for deliveries to OCONUS locations in 35 calendar days.</p> <p>FOB: Destination</p>	Various	TBD	Lot
2040	<p>Shipping Variations – FFP</p> <p>Alternate or additional delivery terms or schedules negotiated under individual orders under this contract.</p> <p>FOB: Destination</p>	Various	TBD	Lot

CLIN	CLIN Description	MFG.	Price	Unit of Issue
2050	<p>Contractor Manpower Reporting – FFP</p> <p>This CLIN shall be included in every Army order containing services. This CLIN shall be used for the pricing of the collection and reporting Contractor Manpower Reporting Data and will be priced on an individual order basis. Reporting period will be the period of performance not to exceed twelve (12) months ending 30 September of each Government Fiscal Year and must be reported by 31 October of each calendar year. For each order, the contractor shall specify the estimated number of direct labor hours required for the CMR reporting of that specific order and the applicable estimated direct labor dollars.</p> <p>FOB: Destination</p>	IBM	TBD	Lot
2060	<p>DoD Enterprise Software Initiative (ESI) – COST</p> <p>The contractor shall provide software from DoD ESI sources.</p> <p>FOB: Destination</p>	Various	TBD	Lot
2070	<p>Other Direct Costs – COST</p> <p>Other direct costs for items used in providing services, including travel and as negotiated in individual orders under this contract. Travel and per diem costs shall be reimbursed in accordance with the then current version of the Joint Travel Regulations (JTR's) within the ODC CLIN.</p> <p>FOB: Destination</p>	Various	TBD	Lot
2080	<p>Non-Catalog Items – FFP</p> <p>The Government reserves the right to add CLINS for individual items to Section B that currently are not catalog items.</p> <p>FOB: Destination</p>	Various	TBD	Lot

Services and Other Direct Costs

IBM Global Business Services is the division within IBM that focuses on providing tailorable and scalable services solutions to meet the Federal Government's mission requirements. IBM Global Business Services leverages the entire breadth and depth of the IBM Corporation, including IBM's global presence, to develop and implement real-world e-business solutions for our customers. For ITES-2H, services shall be directly related to the equipment requirements. IBM will also provide legacy equipment maintenance/warranty as part of system configuration and integration services. The legacy equipment warranty/maintenance shall be related to the integration of equipment procured under ITES-2H and will clearly define items to be maintained and level of service required. All services shall be performed as negotiated and agreed to by the requiring activity.

Other direct costs (ODC's) for items used in providing the related services shall be priced on a cost reimbursable basis. Travel and per diem costs shall be reimbursed in accordance with the then current version of the Joint Travel Regulations (JTR's) within the ODC CLIN.

IBM will provide services on a site-specific basis, as required, to the Government in all matters relating to the installation and maintenance of ITES-2H products. The services include, but are not limited to, the following subject areas:

- System Configuration and Integration
- Physical Site Analysis
- Installation and Relocation
- High Availability Configuration
- Legacy equipment warranty/maintenance
