

Accelerate Merchandising with Cloud

Highlights

- Economics of computing are changing; lines-of-business such as merchandising are gaining access to world-class computing power
 - IBM Cloud solutions for Merchandising help teams focus on innovation rather than technology
 - IBM offers best-in-class SaaS applications to accelerate innovation and focus on business goals rather than IT deployment
-

The number of companies using the cloud for significant innovation is projected to double between 2012 and 2015¹. And a recent IBM global study reveals that leading companies use SaaS beyond a cost-savings deployment option to deliver something even more compelling: competitive advantage².

For Merchandising professionals, this trend represents an opportunity to accelerate delivery of localized assortments, competitive prices, targeted promotions and more effective markdowns.

More than ever, the economics of computing are changing; lines-of-business such as merchandising are gaining access to world-class computing power, with lower capital and labor expenses. And while technology plays a crucial role in creating the most effective omni-channel merchandise optimization platform possible, lengthy IT deployments are unacceptable when business innovation is at stake.

The Power to Innovate

IBM Cloud solutions for Merchandising accelerates innovation giving teams access to advanced, secure and always up-to-date solutions in the cloud. Now, optimizing prices across channels, or executing markdowns at the right time and depth, is as simple as tapping into the IBM cloud, where solutions are readily available to help deliver business process innovation, insight and business results.

IBM Cloud solutions for Merchandising can help retailers maximize sales, profit and shopper loyalty by:

- basing assortment decisions on a quantitative understanding of shopper behavior, incrementality and transferable demand.
- optimizing and executing cross channel pricing with knowledge of how customers respond to different prices in different channels, and how competitors' prices affect sales.

- increasing promotion effectiveness using analytics to recommend promotions and executing across various customer touchpoints.
- identifying the optimal depth, timing and localization of markdowns to achieve inventory, revenue and profit objectives.

IBM has a suite of subscription-based SaaS solutions just for merchandising—from shopper insights to price optimization to promotion planning and execution, and more. These include:

- **IBM DemandTec Price Optimization** - manage and optimize competitive prices across channels based on defined objectives.
- **IBM DemandTec Promotion Optimization** - identify optimal offers and placement to execute more profitable promotions.

Other IBM Cloud solutions for Merchandising include:

IBM DemandTec Shopper Insights
 IBM DemandTec Assortment Optimization
 IBM DemandTec Price Management
 IBM DemandTec Promotion Planning
 IBM DemandTec Promotion Execution
 IBM DemandTec Deal Management
 IBM DemandTec Markdown Optimization
