

## IBM Sterling Inventory Visibility

See critical item inventory  
availability in just 2 weeks

Let IBM help you gain a single, scalable, complete view of your inventory across all channels so you can grow sales, protect margins and increase customer satisfaction.

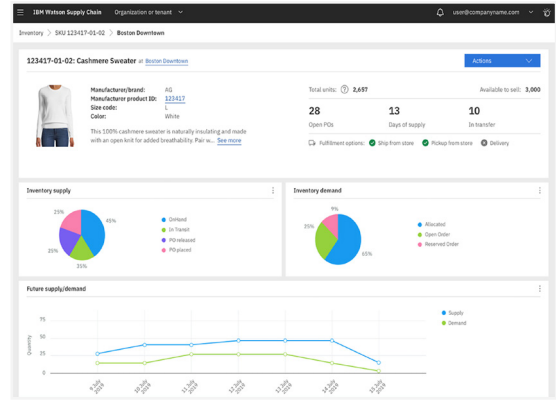

This accelerated implementation offering by **IBM Sterling Expert Labs** enables you to get critical item inventory insights across your supply chain in a production environment in 2 weeks. This will enable immediate visibility into select items that you prioritize as the first step towards realizing the benefits of IBM Sterling Inventory Visibility.

### How can IBM Sterling Inventory Visibility help your business?

- **Meet customer needs and save sales** through a global view of all available inventory.
- View your inventory in **one source of truth**.
- Display critical item availability across different sources to **optimize fulfillment** by integrating Inventory Visibility into portals and applications.

### What value will you receive?

- Configuration, architecture and interface design to get you up and running at a modest cost
- Starter kit to accelerate the deployment of Sterling Inventory Visibility
- 2 weeks of post go-live support and fine tuning
- Next step recommendations for automation, use case expansion and leveraging the product business user controls UI

“We are able to sell more without having to buy more inventory. That plays through to margins and, ultimately earnings.”

— A major US retailer

**IBM Sterling Expert Labs** uses a global, blended delivery approach with proven expertise, tools, and agile methodologies to develop business-aligned strategies and implementation plans to guide clients in transforming their business.

### Key Deliverables

- Java utility to load Inventory Visibility Master data
- Starter Angular UI project
- Next steps and post FastStart recommendations

### Deliver with confidence

IBM experts will work with you to plan and deliver a successful implementation. Maximize your investment and get more from your IBM software investment with guidance and direction.
