

# IBM Technology Expert Labs

IBM® Technology Expert Labs offers infrastructure services to help you build the foundation for today's hybrid cloud and enterprise IT data centers. From servers and mainframes to storage systems and software, Technology Expert Labs helps you deploy the building blocks of a next-generation IT infrastructure that empowers your business.

Technology Expert Labs consultants perform infrastructure services for clients online or on site, offering deep technical expertise, valuable tools and successful methodologies. Our services are designed to help clients solve business challenges, gain new skills and apply best practices.

Technology Expert Labs offers a wide range of infrastructure services for IBM Power™, IBM Storage, IBM Z® and IBM LinuxONE, and GDPS®. Technology Expert Labs has a global presence and can deploy experienced consultants around the world.

# Storage Offerings from Technology Expert Labs

## Storage for Cyber Resiliency

- Assess IBM DS8000 Health
- Assess IBM Storage Protect Health
- Assess IBM TS7700 Health
- Assess IBM FlashSystem Health
- Assess Storage Cyber Resiliency
- Build IBM FlashSystem
- Build IBM TS7700
- Build IBM Storage Protect
- Build IBM Storage Protect Plus
- Build IBM DS8000
- Build Storage Protect Solution for Power Virtual Server on IBM Cloud
- Perform Upgrade IBM FlashSystem Software
- Perform Upgrade IBM Storage Protect
- Perform Upgrade IBM Storage Protect Plus
- Perform Storage Data Sanitization for IBM DS8000
- Build Cyber Vault
- Build IBM Storage Copy Data Management
- Build Data Encryption with IBM Security Guardium Key Lifecycle Manager (SGKLM)
- Perform Cyber Vault Architecture Workshop (CV-AW)

## Storage for Data and AI

- Assess IBM Elastic Storage Server Health
- Assess IBM Storage Scale Health
- Assess IBM Storage Ceph Cluster Health
- Build IBM Elastic Storage Server (ESS)
- Build IBM Storage Scale Protocol Nodes
- Build IBM Storage Ceph Cluster
- Perform Upgrade IBM Elastic Storage Server (ESS) Software
- Perform Upgrade IBM ESS Protocol Node Software
- Perform IBM Storage Ceph Upgrade
- Perform RHEL 7 to RHEL 8 Upgrade for Red Hat Ceph Cluster
- Perform Red Hat Ceph Storage 4.3 to Red Hat Ceph 5 Upgrade
- Build IBM Storage Scale
- Build IBM Storage Solutions for Data and AI
- Assess Storage Scale Performance

## Storage for Hybrid Cloud

- Build IBM Storage Fusion Hyper Converged Infrastructure (HCI)
- Build Storage Solutions for Hybrid Multicloud
- Build IBM Storage Fusion
