

AI-powered transformation for the modern enterprise

Unlock efficiency, resilience and growth

IBM offers a comprehensive suite of AI-powered automation solutions designed to help organizations modernize IT operations, accelerate innovation and optimize performance across hybrid cloud environments. By integrating automation into every layer of IT and business operations, IBM empowers enterprises to become more agile, secure and cost-efficient. Break down traditional productivity barriers to propel the next wave of growth with IBM® IT automation solutions that offer these core capabilities:

Hybrid cloud automation

Automate provisioning, networking and access controls to enhance compliance and operational agility across hybrid environments. Explore [HashiCorp solutions](#).

Application lifecycle automation

Integrate, orchestrate and modernize applications with AI-assisted tools to accelerate delivery and innovation. Explore [IBM webMethods Hybrid Integration](#).

AI-powered observability

Gain real-time visibility into application and infrastructure health, and leverage AI to proactively resolve issues and optimize resource allocation to boost productivity and cost savings. Explore [IBM Instana](#)®.

Identity and access management

Deliver secure, seamless access with a vendor-agnostic, AI-assisted identity fabric that integrates with existing tools. Explore [IBM Verify](#).

Asset and cost optimization

Maximize the value of IT and OT assets with AI-powered insights, intelligent cost management and lifecycle governance. Explore [IBM Maximo](#)® and [IBM Apptio](#)™.

Real stories. Real impact.

IBM IT automation solutions are already transforming businesses across industries. Here are a few standout examples:

- [SIXT](#)
Achieved a 70% reduction in problem detection and resolution time using IBM Instana for observability.
- [Transport for London](#)
Projects GBP 21 million in savings over 10 years for the London Underground through asset management with IBM Maximo.
- [Komatsu Australia](#)
Leveraged IBM's integration solution to achieve 30% faster development and reduced integration time from five days to one.

IBM delivers automation that scales with you. AI that accelerates your growth. Innovation that drives real results.
