

# Easy and intuitive Mobile Device Management

Specifically designed for small and medium-sized businesses

Traditional endpoint management solutions can often overwhelm small businesses with complexity, requiring significant time and expertise to implement and to maintain. MaaS360 Fast Start provides a streamlined and intuitive experience that allows administrators to quickly onboard devices, apply security settings, and distribute applications – all in a matter of minutes.

## Key MaaS360 Fast Start features:

- Seamless Onboarding: Rapidly onboard both iOS and Android devices with automated enrolment
- Preconfigured Policies: Quickly implement an industry-standard security policy that's best for your business
- Simplified Management: Effortlessly manage devices and distribute applications through an intuitive interface
- Easily Upgrade: Seamlessly upgrade for additional capabilities as your business grows and changes.

## MaaS360 Fast Start value:

- Reduced Administrative Burden: Eliminate costly and time-consuming aspects of traditional endpoint management
- Enhanced Security: Ensure compliance with industry standards, effectively mitigating cybersecurity threats
- Improved Productivity: Easy to setup system, fast deployment and mobile device activation and simple administering and securing mobile devices

## The 1-2-3s of MaaS360 Fast Start:

1. Set up mobile devices – follow the guide and add your devices to MaaS360 dashboard, deep mobility IT expertise is not required
2. Select your security level – from predefined security options and you can always change as you wish
3. Distribute apps to all mobile devices – Add your needed apps to all devices in one step, from MaaS360 console

That's it!
