Equipment and other services

IBM Client Center provides different services to add value to your meeting. Welcome to book these special features and give your meeting that extra touch.

Guided tours

We offer guided tours that give an overall view of our solutions and technical advances. If you want to know more about a specific area we can get an expert of that too.

Catering

IBM Client Center offers a wide selection of food, snacks and beverage. We can also help you customize a menu specific for your event.
Vidyo/Video conference

With Virtual meeting you can be a part of the conversation even if you’re not on site. It’s compatible with mobile devices, internet browsers and tablets.

Photography/Filming

If you want or need to document your event we can help you photograph and shoot moments of your time here at IBM Client Center. Give us a clear description of what you want and we will do our best to satisfy your needs.

Marketing on social media

We can help you marketing your event on social media and on our website. We can also help you to create a #hashtag for the event.
Furnishing

Since your needs are different for each meeting we can help you furnish the room to optimize your time here at IBM Client Center

Clickshare

This one click wonder helps the presenter get the presentation on-screen in a second and also allows the other people in the meeting to participate more actively. This is done using the unique ClickShare Button, or by installing a simple app to share content from an Android or iOS smartphone or tablet. The result is enhanced meeting efficiency and better decision-making.
Audience Response System

A powerful way to connect and communicate during meetings and events. Audience Response is a tool used to create interactive presentations. Speakers connect with audiences using simple, intuitive polling software and response devices.

Huddlewall – Smart Interactive Whiteboard

This interactive whiteboard allows you to add functions for video meetings and pair different system to have a complete solution for a creative collaboration. During the meeting you can easily save your meeting notes and share to others.
This service allows you to livestream your event or meeting to an external audience. This will allow people to participate no matter where in the world they are. Videos will also be available after the event for those who cannot attend the live session.
