IBM's longstanding, global commitment to corporate responsibility is a demonstration of our values and the priorities that guide them. By integrating corporate responsibility with business strategy, we contribute to the communities in which we do business while engaging our clients, partners and employees. IBM's technology and talent have the power to help transform governments, institutions, communities and the quality of life for people around the world. Whether it's improving education, revitalizing cities, protecting the environment or driving economic growth, IBM and IBMers contribute innovative solutions to the world’s toughest societal challenges.

“To build a smarter planet — and to run a smarter enterprise — your business and citizenship strategies must be more than aligned. They must become one. This is very different from traditional notions of ‘giving back’ or CSR. Speaking as an IBMer, I believe this comes from the core of our culture, values and purpose as an enterprise — to be essential to our clients and to the world,” says IBM Chairman, President and CEO Ginni Rometty.

**Problem solving**

The Smarter Cities Challenge (SCC) deploys IBM experts to help cities around the world address their most critical challenges, by delivering recommendations for making the city smarter and more effective. SCC is IBM's largest philanthropic initiative, with contributions to date valued at more than $50 million. Since 2010, IBM has deployed 700 top experts to help 116 cities around the world. **Knoxville received an SCC grant** in 2013, when an IBM team helped develop a roadmap to improve coordination between utilities and the city, based on better data and effective governance. In 2015, Memphis was awarded a grant that will take place in 2016.
IBM Impact Grants bring sophisticated capabilities to non-profit organizations to help them serve their constituencies more effectively. IBM has delivered more than 1,500 Impact Grants worldwide since 2010, with more than 500 grants delivered in 2014. IBM has donated a Strategic Planning Impact Grant to Communities in Schools of Tennessee.

Worldwide in 2014, 100 Corporate Service Corps teams worked on pro bono consulting projects to improve women’s health, preserve the environment, and more. World Community Grid® helped strengthen the fight against cancer and Ebola by providing free “virtual supercomputing” power to humanitarian researchers.

**Education**
IBM’s innovative P-TECH grades 9 to 14 model connects education to jobs. In the 2014-15 school year, P-TECH’s first six graduates finished high school and college in just four years, as the P-TECH network expanded to 27 schools across three states. IBM also unveiled Codename: Watson Teacher Advisor, an advanced cognitive computing system that will provide qualified lesson plans and mentoring to teachers via mobile devices — all free of charge.

**Employee engagement**
Nearly 270,000 active and retired IBMers have donated nearly 18 million hours of volunteer service through IBM’s On Demand Community®, and IBM’s Volunteer Excellence awards bestow CEO-level recognition on those employees who, through their actions, best personify IBM’s culture of service. U.S. and Canadian employees also can make cash contributions through payroll deductions. In Tennessee, IBM awarded 19 Community Grants worth $35,000 in 2014 to organizations where IBMers volunteer.

**Disaster relief**
Integrating advanced technologies with the expertise of IBMers, IBM delivers essential components of what it takes for affected areas and individuals to regroup, rebuild and recover. Joining the global fight against Ebola and responding to the devastation of Hurricane Haiyan in the Philippines, with both immediate and long-term solutions, were just two examples of IBM’s agile and sustained 2014 disaster relief efforts.

**Awards & recognition**
- *Fortune* — Most Admired Companies
- *Corporate Responsibility Magazine* 100 Best Corporate Citizens
- U.S. Environmental Protection Agency Climate Leadership Award (2012-14)
- European Diversity Awards — Supplier Diversity Programme of the Year
