Why TechU 2019?
Are you finding it a challenge to keep up with the latest technology & industry developments? Are you looking for the best way to learn about disruptive technologies like AI and Hybrid Cloud? What about the latest developments in your traditional infrastructure?
In the era of digital transformation, IT professionals must adjust to a rapidly shifting technology and business landscape. Learn to leverage these technology trends at the IBM® Systems Technical University (TechU) in Bangkok.

Join us for a fantastic week of training and enablement on IBM’s latest AI, Cloud, Server and Storage solutions at a venue where you can truly immerse yourself and network with your peers and IBM experts. You’ll learn how to plan, design, install, configure, migrate, operate and tune your IBM infrastructure for today and tomorrow.

Who should attend?
IBM TechU features skill-building sessions that are in demand and appeal to attendees who share a technical vision. It is intended for IBM clients, IBM Business Partners and IBM employees:
- Business Partner Technical and Sales Specialists
- IT Architects and Specialists
- Data Scientists, Database Administrators, and Application Programmers
- Technical Leaders and Managers
- Infrastructure Planners
- Implementation and Deployment Specialists
- Systems Administrators and Programmers

IBM TechU offers technical sessions, roundtables, demos, hands-on tracks, a solution centre and more for all IT focused Technical and Sales Experts.
