Why TechU 2020?
Are you finding it a challenge to keep up with the latest technology and industry developments? Are you looking for the best way to learn about disruptive technologies like AI and hybrid cloud? What about the latest developments in your traditional infrastructure? In the era of digital transformation, IT professionals must adjust to a rapidly shifting technology and business landscape. Learn to leverage these technology trends at the IBM® Systems Technical University (TechU) in Amsterdam, The Netherlands.

Join us for a fantastic week of training and enablement at a venue where you can truly immerse yourself and network with your peers and IBM experts. You’ll learn how to plan, design, install, configure, migrate, operate and tune your IBM infrastructure for today and tomorrow.

Who should attend?
IBM TechU features skill-building sessions that are in demand and appeal to attendees who share a technical vision. It is intended for IBM clients, IBM Business Partners and IBM employees:
- Business partner technical and sales specialists
- IT architects and specialists
- Data scientists, database administrators and application programmers
- Technical leaders and managers
- Infrastructure planners
- Implementation and deployment specialists
- Systems administrators and programmers

IBM TechU offers technical sessions, roundtables, demos, hands-on tracks, a solution center and more for all IT-focused technical and sales experts.

Solutions, Use Cases and Architectures
- Infrastructure for the digital transformation
- Mission critical core systems
- Scalable data analytics
- Artificial intelligence
- Hybrid multicloud environments
- Open source and open standards based solutions
- Secure computing

IBM Storage
- AI and Big Data (Scale/ESS, COS, Discover),
- Storage for Hybrid MultiCloud (Storwize, FlashSystems, A9)
- Storage for Red Hat OpenShift
- Cyber Resiliency
- Storage for System Z

IBM Z and LinuxONE
- IBM Z and IBM LinuxONE servers
- IBM z/OS®, z/VM®, and Linux on Z
- Db2®, Oracle, CICS®, MQ, IMS
- DevOps and application development
- Hybrid cloud, Containers and Kubernetes
- Data security, high availability and data protection
- Open source applications and initiatives
- Specific learning paths such as
  - Fast Start z/OS for Rookies
  - IMS Symposium
