Brought to you by
IBM Systems Lab Services

Have you thought about the future of your career? Technology is changing the way we work and affecting future career choices. In the era of digital transformation, IT professionals must adjust to a rapidly shifting technology and business landscape. Learn to leverage disruptive technology trends like cloud and cognitive at the IBM Systems Technical University (TechU) in Dubai.

Join us for the most comprehensive technical training event on IBM Systems, products and solutions. You'll learn how to plan, architect, install, configure, migrate, operate and tune your IBM infrastructure for today and tomorrow. Train to stay ahead with IBM Systems TechU.

Packed with a punch

The Dubai TechU offers over 230 focused, in-depth training sessions and hands on labs delivered by IBM Distinguished Engineers, developers or product experts.

Check out the key topics below:

IBM Power Systems

- IBM AIX®, IBM i and Linux on Power
- High Availability with IBM PowerHA®
- SAP HANA and Modern Data Platform, Oracle, Open Source Database Solutions
- Cognitive: HPC, IBM PowerAI, Data Analytics, Hortonworks
- Security with IBM PowerSC™
- Deep Dive Performance and Tuning
- Power Virtualization and IBM Cloud™ Solutions with IBM PowerVM®, IBM PowerVC, IBM Cloud Private, OpenStack, Nutanix

IBM Storage & SDI

- IBM FlashSystem®
- Cloud and Virtualization
- Software-Defined Storage
- Security and Encryption
- Object Storage
- Data Protection Archive and Backup
- Server and Storage Hardware

Get certified!

Systems hardware and software certification exams will be offered at the special event rate of USD 100 per exam, up to a 50% discount over the testing center price. A complete listing of IBM tests is available at the testing lab. Certification testing is handled on a first-come-first-serve basis and by appointment only. Potential test takers should prepare for their test(s) prior to the conference.
