TechU - Poster Sessions

IBM Systems Technical University (TechU) Poster Session is an opportunity for individuals to share their research, findings and achievements with their colleagues. TechU offers a dedicated time for poster presenters to present and discuss their posters with the diverse group of attendees. Posters will be presented in a social setting provided to promote networking and collaboration building.

Presenting a poster at TechU is a noteworthy way to share expertise or accomplishment in a specific area while contributing to tech research. Check out cutting-edge research from IBMers, clients and business partners. Network with the researchers and discuss how their work will shape the future of technology. Please consider participating in this great event and becoming an integral part of TechU.

All TechU attendees are welcome to *participate (you do not have to be a speaker - this is an alternative and informal format to share research and expertise). Projects cover a variety of IBM Systems topics including fundamental advances in machine learning, the power of all data with IBM Watson machine learning, millennial mainframe, IBM LinuxONE and Linux on Z - the ideal platform for secure data and hybrid clouds, enterprise design thinking, AI solution on Power with Apache Hadoop, HA/DR solutions for cognitive systems, visibility into hybrid cloud applications, introducing IBM MQ Appliance, the power of all data with IBM Watson, disaster recovery and AI for cybersecurity. If you need help or suggestions for a poster please review this blog.

*Due to the large number of poster submittals we receive and time restriction we cannot accept every poster. Please submit your poster requests before the deadline.

Three options available for submitting poster abstracts:

1. Create a PDF and send it to IBM TechU team by deadline so that it will be printed by local professional printing company and ready for display.
(2) Bring the printed poster, or pages, and tape them to the foam board at the event.

<table>
<thead>
<tr>
<th>Geo</th>
<th>Paper Size</th>
<th>Orientation</th>
</tr>
</thead>
<tbody>
<tr>
<td>US:</td>
<td>20x36”</td>
<td>Landscape only</td>
</tr>
<tr>
<td>EU &amp; the rest</td>
<td>A0</td>
<td>Landscape or Portrait</td>
</tr>
</tbody>
</table>

(3) Draw the poster at the events, for those who want to do a last-minute poster. Supplies will be provided on site for adhering printed pages to your poster board.

_We invite attendees to VOTE FOR THEIR FAVORITE poster. Winner will receive a special prize._
