

## Quick Start Guide

*Get started quickly with installing IBM Spectrum Control storage-management software.*

Globalization Version: View or download translations of this document from the same location as the English version.

### Product overview

IBM Spectrum Control™ offers licenses with the following features and pricing:

#### IBM Spectrum Control Standard Edition and IBM Spectrum Control Standard Select Edition

These licenses provide the following features:

- A single dashboard view of the storage environment, that you can use to manage storage systems, hypervisors, servers, and networks
- Capacity and usage monitoring, as well as management and planning for the heterogeneous storage environment
- Performance monitoring for storage systems and networks
- Health and alerting for storage systems, hypervisors, servers, and networks
- Modeling of departments and applications to understand the consumer view of the environment
- The VMware vCenter plug-in, a tool to help you manage and provision virtual storage in a vSphere environment, and view reports about storage systems that are monitored by IBM Spectrum Control
- Reports from IBM® Cognos® Business Intelligence that provide reporting and analytics information

These licenses include a license for IBM Copy Services Manager, which manages 2-site replication, 3-site replication, and advanced copy services. You can learn more about how to download and install Copy Services Manager at <http://www.ibm.com/support/knowledgecenter/SSESK4>.

The IBM Spectrum Control Standard Edition license is priced by the capacity of the storage systems that it manages. The IBM Spectrum Control Standard Select Edition license is priced by the number of storage enclosures that it manages.

#### IBM Spectrum Control Advanced Edition and IBM Spectrum Control Advanced Select Edition

These licenses contain everything that is in the IBM Spectrum Control Standard Edition license, plus the following features:

- Analytics-driven, tiered-storage optimization that automatically moves data to the most cost-effective tier
- Storage pool balancing, block storage provisioning, and storage reclamation
- Application-aware snapshot-based protection that is offered by IBM Spectrum Protect™ Snapshot
- Roll up reporting that allows capacity data to be combined from multiple instances of IBM Spectrum Control for reporting purposes

The IBM Spectrum Control Advanced Edition license is priced by the capacity of the storage systems that it manages. The IBM Spectrum Control Advanced Select Edition license is priced by the number of storage enclosures that it manages.

### 1 Step 1: Access the software and documentation

Download the product from IBM Passport Advantage® by going to <https://www.ibm.com/support/docview.wss?uid=swg24041940> and clicking the link for a new installation or an upgrade. Follow the instructions for your platform. Install the product by following the installation instructions in the IBM Spectrum Control product documentation at Installing ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_t\\_installing\\_main.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_t_installing_main.html)).

If you choose to download and install IBM Copy Services Manager, follow the instructions in the IBM Copy Services Manager Knowledge Center (<http://www.ibm.com/support/knowledgecenter/SSESK4>). To download and install IBM Spectrum Protect Snapshot, go to IBM Tivoli Storage FlashCopy Manager Knowledge Center (<http://www.ibm.com/support/knowledgecenter/SS36V9>).

### 2 Step 2: Evaluate the hardware configuration

Review the hardware requirements. See the IBM Spectrum Control product documentation at Hardware requirements ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_r\\_hw\\_requirements.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_r_hw_requirements.html)).

### 3 Step 3: Evaluate the system configuration and install the prerequisite software

Review the software requirements:

- Learn about the software requirements for the product at Software requirements ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_r\\_sw\\_requirements.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_r_sw_requirements.html)).
- Learn about the hardware, products, and platforms that you can use with IBM Spectrum Control at <http://www.ibm.com/support/docview.wss?uid=swg21386446>.

### 4 Step 4: Install DB2

Before you install IBM Spectrum Control, you must install the version of IBM DB2<sup>®</sup> Enterprise Server Edition that is included with IBM Spectrum Control. IBM Spectrum Control stores the information that it collects about storage resources in a DB2 database.

Follow the instructions in DB2 ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_t\\_installing\\_db2.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_t_installing_db2.html)).

### 5 Step 5: Install IBM Spectrum Control

You can use an installation program or a command line in silent mode to install IBM Spectrum Control. Follow the instructions in Installing IBM Spectrum Control ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_t\\_installing\\_tpc.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_t_installing_tpc.html)).

### 6 Step 6: (Optional) Install Cognos Business Intelligence reports

The IBM Spectrum Control installation process includes the option to install IBM Cognos Business Intelligence (BI) reports and the product that is required to produce these reports: Jazz™ for Service Management and its reporting services (IBM Tivoli<sup>®</sup> Common Reporting). Cognos BI produces scheduled reports from the data that is gathered by IBM Spectrum Control.

Learn about Cognos BI reports at Reporting ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_c\\_webbasedgui\\_rpting\\_ic\\_ov.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_c_webbasedgui_rpting_ic_ov.html)). Also learn about the components that you must install to use Cognos BI reports at Install Jazz for Service Management and Tivoli Common Reporting ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_c\\_jazzsm\\_tcr.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_c_jazzsm_tcr.html)).

If you choose not to install Cognos BI, you can use the reporting features of the IBM Spectrum Control user interface to produce reports about the status, capacity, and performance of the storage resources that you want to monitor.

### 7 Step 7: Get started

Follow the tasks in Getting started with IBM Spectrum Control ([http://www.ibm.com/support/knowledgecenter/SS5R93\\_5.2.10/com.ibm.spectrum.sc.doc/fqz0\\_r\\_getting\\_started.html](http://www.ibm.com/support/knowledgecenter/SS5R93_5.2.10/com.ibm.spectrum.sc.doc/fqz0_r_getting_started.html)).
