zSecure Audit for Top Secret User Reference Manual

This chapter lists the documentation updates for *zSecure Audit for Top Secret User Reference Manual* as a result of the zSecure CICS TS 5.5 currency support PTF.

In Chapter. Resource reports for z/OS, several panels were updated.

In the CICS Regions selection panel, you can select advanced selection criteria. When you select **Region security settings**, two panels are displayed in sequence:

1. The first panel is used for selection criteria that compare against a specified value:
