

This file contains additions/changes made to the Global Knowledge database for May 2024.

Note:

We have removed some exits from the GKB that were added in error because we were not aware of them. The modules listed below have been removed from various products that used to have them as part of their identification. We try to exclude modules that are exits as best we can because sometimes having exits that are modified by the user can cause identification errors.

IMS Logon exit (DFSLGNX0)
IMS Logoff exit (DFSLGFX0)
IMS Signon exit (DFSSGNX0)
IMS Signoff exit (DFSSGFX0)
IMS Insert exit (DFSINSX0)
IMS Command Authorization exit (DFSCCMD0)
IMS Greetings Message exit (DFSGMSG0)
IMS Non-Discardable Messages exit (DFSNDMX0)

Note:

Over the next few months we will be renaming many Broadcom products. Finally the prefix CA is being removed from some of the products. See below for the ones that have been renamed. This may not happen every month.
