Copyright IBM Corporation 1993, 2020

- The information in this document was last updated:

21 Jun 2019

- The latest cumulative package for i 7.4 is: C0121740

- Cumulative package C0121740 began shipping worldwide:
  15 May 2020.

- Date cumulative PTF package instructions last updated:
  15 May 2020.

- The next cumulative package is scheduled for 20 Nov 2020.

      NOTE: THIS DATE MAY CHANGE WITHOUT NOTICE, CHECK THIS FILE
            BEFORE ORDERING.

- Users should order Preventive Service Planning (PSP) information
  and review the recommended HIPER PTFs on a weekly basis.
  The PSPs can be viewed through the Internet at URL:
  http://www.ibm.com/support/docview.wss?uid=nas8N1021657

- It is important that users review and understand all new software
  release considerations. This is especially true of discontinued
  support for selected software and hardware products and/or features.
  To get the most current information on discontinued products and/or
  features along with suggested replacements, go to the IBM i operating
  system Planning Web site:
  http://www.ibm.com/systems/support/i/planning/

- To review the IBM i operating system Information Center information on
  installation, upgrades, and migration, follow the link:
  http://www-01.ibm.com/support/knowledgecenter/ssw_ibm_i/welcome
  You may find this information useful to install hardware and software,
  upgrade to a different OS/400 release, upgrade your hardware, or migrate
  your data from one server to another.

- Hardware Management Console (HMC)

  The HMC is a dedicated workstation that runs integrated
  system management software. As with other software,
  your HMC should be kept current. For HMC Fixes and update
  information, refer to the HMC Code Updates or the Server
  Firmware and HMC Wizard documents at Recommended Fixes:
  http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480

  For information regarding general HMC support information,
  go to the following URL:
  http://www14.software.ibm.com/webapp/set2/sas/f/hmc/home.html

- Server Firmware

  Server firmware is part of the Licensed Internal Code that
  enables your hardware. As with other software, your server
  firmware should be kept current. For general information,
  refer to the Information Center URL:
  http://publib.boulder.ibm.com/infocenter/eserver/v1r3s/index.jsp

  For the Server Firmware and HMC Code / Installation Wizard:
  Go to Recommended fixes at the following URL:
  http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480 and
  specify Server Firmware and HMC Wizard.

- PTFs may be ordered through the Internet. For more information,
  go to URL:
  http://www.ibm.com/eserver/support/fixes/fixcentral/main/iseries/

- Single PTFs, Group PTFs, and Cumulative PTF Packages ordered through
  Fix Central or using the SNDPTFORD command are shipped priority 2.

  The delivery criteria for Single PTFs, Group PTFs, and
  Cumulative PTF Package orders can be found at the following URL:
  https://www14.software.ibm.com/webapp/ssos/order_status

- The following is a summary of the i 7.4 information that is
  available through Electronic Customer Support (ECS):

DETAILED DESCRIPTIONS:
----------------------

NOTE:  Refer to the chart above for a list of the currently
       available PSPs.
```

SF99740 - Order this PTF number when you would like to receive the
           latest cumulative PTF package that is available in your
           country.

SF99739 - Ordering this PTF number will result in the shipment of a
           CD-ROM containing all known HIPERs. SF99739 will be refreshed
           on Tuesday of every other week.

SF98202 - This PSP contains a short version of the cumulative PTF
           instructions and the detailed installation instructions for a
           previous cumulative package.

SF96202 - This PSP contains the listing of PTFs on the cumulative PTF
           package for a previous cumulative package.

SF98201 - This PSP contains a short version of the cumulative PTF
           instructions and the detailed installation instructions for a
           previous cumulative package.

SF96201 - This PSP contains the listing of PTFs on the cumulative PTF
           package for a previous cumulative package.

SF98203 - This PSP contains a short version of the cumulative PTF
           instructions and the detailed installation instructions for
           the current cumulative package.

SF96203 - This PSP contains the listing of PTFs on the cumulative PTF
           package for the current cumulative package.

SF98740 - This PSP contains information on all known High Impact and
           Pervasive (HIPER) PTF problems that are NOT included in the
           latest cumulative PTF package but may affect your operation.
           This PSP also contains General Information items. If there are
           any defective PTFs that were in the cumulative PTF package,
           they would also be listed in the PTFs in Error Section of this
           PSP.

SF98204 - This PSP provides information for a specific cumulative PTF
           package level. The summary table (above) cross references the
           PSP number to the cumulative package level. Order the PSP
           number that corresponds to the cumulative package you are
           installing or last installed. This PSP contains HIPERs and
           General Information items. If there are any defective PTFs
           that were in the cumulative PTF package, they would also be
           listed in the PTFs in Error Section of this PSP. The PSP for
           the cumulative package you have installed should be ordered
           periodically and reviewed for the latest information on known
           problems.

SF98205 - This PSP provides information for a specific cumulative PTF
           package level. The summary table (above) cross references the
           PSP number to the cumulative package level. Order the PSP
           number that corresponds to the cumulative package you are

installing or last installed.This PSP contains HIPERs and
General Information items. If there are any defective PTFs
that were in the cumulative PTF package, they would also be
listed in the PTFs in Error Section of this PSP. The PSP for
the cumulative package you have installed should be ordered
periodically and reviewed for the latest information on known
problems.

SF98200 - This PSP provides software installation information that
should be reviewed before installing i 7.4 and before adding
new program products. Information in this PSP is grouped by
product areas that may affect you during installation.

SF98206 - This PSP file contains information about Upgrades &
Migrations, including PTFs that are critical to operations
that occur during the upgrade process and corrections to the
Upgrade and Migration topics in the Information Center (i 7.4).

SF98207 - This PSP contains a summary of PTFs that have been identified
as High Impact or Pervasive problems and a summary of
Defective PTFs (PTFs that have been found to be in error).

SF98208 - This PSP provides a complete list of i 7.4 Defective PTFs
(PTFs in Error). Users who regularly order and apply
individual PTFs should periodically review this PSP.

SF98209 - This PSP provides a complete list of all the High Impact or
Pervasive (HIPER) problems that have been discovered for i
7.4. Those users who support several systems at different
cumulative package levels may find this PSP useful.

MF98740 - This PSP provides information that should be reviewed before
installing new systems or hardware devices. Problems that may
affect the installation or operation of hardware devices are
documented here.

MH98740 - HMC code must be current. Review HMC information at:
http://www14.software.ibm.com/webapp/set2/sas/f/hmc/home.html
or refer to the HMC Code Updates document in Recommended
Fixes:
http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480

MH98741 - This document applies to IBM i operating systems that have the
Firmware Update Policy set to Operating System or systems not
managed by an HMC. The server firmware information in this
document does not apply to Model 595 systems. Server firmware
fixes are ordered (using the SNDPTFORD command or Fix Central)
and installed as PTFs using the IBM i operating system PTF
installation functions. These PTFs have a prefix of MH. Refer
to the Server Firmware: Update policy set to Operating System
document in Recommended Fixes for more information:
http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480

```
    SF97068 - This PSP provides a listing to assist you when upgrading from
              i 7.2 to i 7.4. This listing allows you to analyze the
              PTFs/Fixes you currently have installed on your i 7.2 system
              and determine which i 7.4 PTFs/Fixes you need to order to
              maintain the same or higher PTF/Fix level as you upgrade to i
              7.4.

    SF97069 - This PSP provides a listing to assist you when upgrading from
              i 7.3 to i 7.4. This listing allows you to analyze the
              PTFs/Fixes you currently have installed on your i 7.3 system
              and determine which i 7.4 PTFs/Fixes you need to order to
              maintain the same or higher PTF/Fix level as you upgrade to i
              7.4.

    SF97740 - The listing provides you with a convenient reference of the
              license internal code fixes (fixes) and program temporary
              fixes (PTFS) that are available by IBM licensed program
              categories. This listing is updated regularly. You may choose
              to order a PTF/FIX that would effect one of your IBM licensed
              programs.
