

The Future Runs on System z

**April 10, 2008
Boca Raton, FL**

Please register for this very important and exciting briefing. The topics are focused on areas of interest to IT and IT Management who have responsibility for mainframe servers, storage, software and services.

The briefing will cover recent IBM announcements and product information in detail. The event will include lunch and provides an opportunity to have discussions with IBM's experts. We look forward to the opportunity to work with you and help you understand this new direction and how it can help your businesses.
