TechU

If anything is certain about the future, it's that there will be more complexity, more data to manage and greater pressure to deliver instantly. To maintain your footprint in tomorrow's marketplace, it's critical to keep up with the changes, master the updates and stay ahead of the curve.

At IBM Systems Technical University events, you will learn how to plan, architect, install, configure, migrate, operate and tune your IBM Power Systems and Storage infrastructure for today and tomorrow. Learn how to take advantage of superior core performance and memory bandwidth to handle flexible consumption models and changing customer needs.

Packed with a punch

TechU offers focused, in-depth training sessions and labs delivered by IBM Distinguished Engineers, developers or product experts on:

IBM Power Systems	IBM Storage and SDI
IBM AIX®, IBM i and Linux on Power	IBM FlashSystem®
Power Virtualization and IBM Cloud™ Solutions with IBM PowerVM®, IBM PowerVC, IBM Cloud Private, OpenStack, Nutanix	Cloud and Virtualization
SAP HANA and Modern Data Platform, Oracle, Open Source Database Solutions	Software-Defined Storage
Cognitive: HPC, IBM PowerAI, Data Analytics, Hortonworks	Security and Encryption
Security with IBM PowerSC™	Server and Storage Hardware
High Availability with IBM PowerHA®	Data Protection Archive and Backup
Deep Dive Performance and Tuning	Object Storage
	Networking

What you'll find at IBM TechU

Sharpen your technical skills with sessions, demos and hands-on labs led by IBM product and industry experts

Test-drive new products from IBM and IBM Business Partners in the Solution Center

Certify your skills on site at an up to 50% discount rate

Expand your professional network when you connect with product developers and industry leaders

Learn from your peers via networking sessions and discussions on real-world IT challenges and successes
