

2019

IBM Systems
Technical University

April 29 - May 3
Atlanta, Georgia

Highlight on z/OS for Rookies track

Built for you!

Every new IT generation which enters the workforce provides an opportunity to bring new skills onto your IBM Z® team. Performance and capacity optimizations are a mission-critical function. Therefore, it's crucial that they keep their skills current.

Send your early career IBM Z programmers and engineers to the new z/ OS for Rookies track at IBM Systems Technical Universities in Atlanta, Georgia. This track of sessions helps your newer team members to get started and go deep on IBM Z with hands-on training delivered by IBM Technical Training Instructors. But that's not all.

IBM TechU is partnering with Interskill to offer 53 e-learning courses targeted at the rookies track attendees. These Interskill courses are available at no additional charge, from the time you register for TechU to three months after the event.

Packed with a punch

The z/OS for Rookies track offers in-depth training sessions and labs delivered on site combined with a self-paced e-learning curriculum.

TechU face-to-face content*	Interskill online content
